### **SSRVM: 25 Years of Excellence in Education**

SSRVM celebrates its 25th anniversary today! With the motto of 'विद्या ददाति पूर्णत्वं', SSRVM has been committed to providing its students with a holistic education that prepares them for success in all areas of life for over 25 years.

Every student at SSRVM imbibes appreciation for deep-rooted culture, intuitive ability, and is shaped into a responsible citizen.

As Gurudev [@SriSriRaviShankar](#) says, "Education must be holistic and not just a process of packing in information. Just attending classes does not mean one is getting educated. We have to pay attention to a child's total development of mind and body, along with culturing human values like a sense of belongingness, sharing, loving and caring, non-violence and peace."

Under Gurudev's guidance, we are committed to continuing his vision of providing a holistic education that will help our students become responsible citizens and make a positive difference in the world.

Spiritual education gives one a very compassionate heart. This type of spiritual education is needed, and not just education.-

Gurudev Sri Sri Ravishankarji

*Just information is not education.*

*It is culturing our behavior and attitude,*

*It is our ability to perceive things better,*

*The purpose of education is to increase awareness*

*Only an education that can nourish inbuilt virtues*

*Can impart true intelligence.*

## PRINCIPAL'S DESK

We as human beings cannot be alone on this earth. We share an integral relationship with everyone and everything around us. But the world is rid with division. It thus becomes imperative that we provide a vision to our children so that they perceive the similarities rather than pointing at difference. “The One World - One Family” concept is the only solution to this crisis we all see around us today.

Our Pujya Gurudev His Holiness Sri Sri Ravishankarji refers to children as our future. To quote Guruji “There is a vital need of a vision which will enable our children to understand the role of humanity on earth and training the mind is the essence of education”. We are happy to have been able to guide our students in that direction. But with the vision comes action and we need to expand the minds of our children and make them realize ‘Their True Potential’.

Our facilitators recognize the need for complete development of the children because they understand that body and mind are so interlinked that what we put in the body reflects on the mind, and what is happening in the mind is reflected on the body e.g violence in the mind reflects on the child's body and his/her actions.
